

Zonal Connect What's New

Version 1.00 | 5 September 2024

Products

Sales Items

The following updates have been made to Sales Items in this release of Zonal Connect.

For more information view our individual help page topics.

General Updates

Update

Selecting an existing sales item will give the option to "clone", allowing for an exact copy to be created

Filtering by product structure and tags gives the ability to have a smaller subset of items to work with in the list

Quickly find sales items by using search, entering the search term by name, description, ID or external reference 1

Add product admin items from within a sale item without navigating away, including preparation route, course, sub-category and portion
